

Cool, you got all the singletons to display! Nice work! Could you add a bit more information on the lineups? Maybe we could have a list of models/hypothesis at the beginning and then sections that summarize things a bit more. Right now I am not quite sure about how to refer to each individual lineup. - OK, fixed that by including the names of the files.

Could you crop the white space from the lineup before saving it? - maybe this blog post helps: <http://robjhyndman.com/hyndsight/crop-r-figures/>

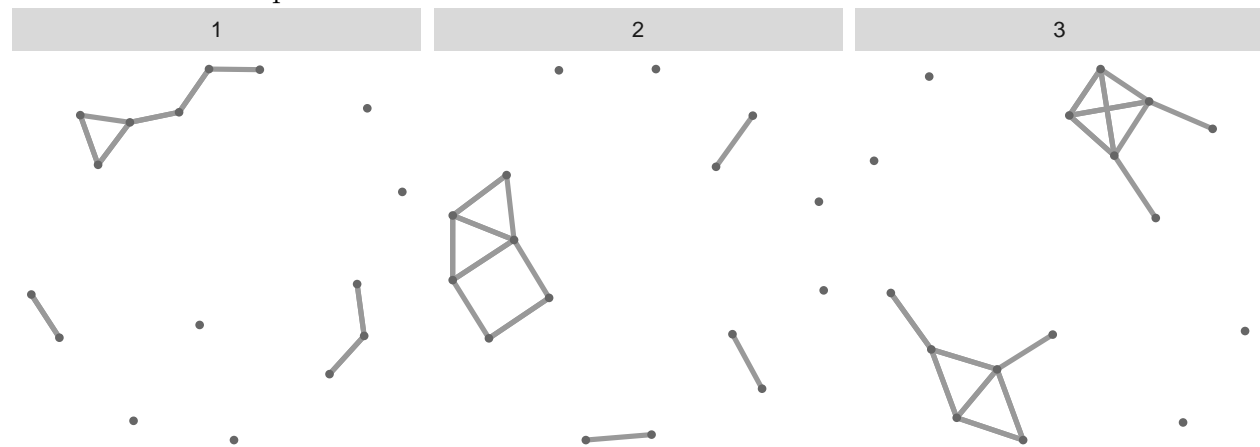

Please add frames around the panels - it helps with separating the graphs from one another
